

Screws

DIN / EN / ISO - STANDARD

Specification

High temperature resistant steel for Nickel- and Cobalt Alloys acc. to DIN EN 10302

Special material and NE - Metals Titanium, Brass, Aluminium etc.

Harmonized Materials acc. to Pressure Equipment Directive PED 97/23/ EC
DIN EN 10269, 10272, DIN ISO 898.

(Ductile Materials with min. 14% elongation and 27 J at working temperature)

Surface treatment:

- Galvanize Coating
- Zinc - Chromatisation
- Hot-Dip Galvanizing
- DACROMET – Coating
- Delta Tone
- Teflon Coating
- Zinc–Ferric resp. Manganese-Ferric-Phosphating
- Chemical nickelisation
- Hard chromium plating
- Painting, Spraying
- Coating for screw protection
